SAHARA  DAKHLALITE

The **DAKHLA LITE** Family completes the successful range **DAKHLA**. Specially designed for limited spaces, with a minimalist design, keeps the manufacturing quality of the DAKHLA family intact as well as the versatility and the capacity to adapt to any

space thanks to its modularity and variety of installation options such as self-supported, wall mounted, suspended or between walls. This family can be completed with the **closures range QATIF or + Glass**.

## CNC MACHINING

Production technology using computer numerical control machines. Highest quality and resistance.

## WATER AND WIND RESISTANT

Its perimeter sealing system, makes it waterproof, providing a tight and comfortable space.

## STABILITY AND SOLIDITY

This product ensures superior wind load safety due to its robust construction and CNC machined components.
